

FOOD

FOOD SYSTEMS

IDEAS

ABOUT THE CONTEST:

The aim of this category is to encourage the development of innovative solutions or approaches that address challenges in food systems, or that will result in progress or changes to support food security, sustainability and/or justice and health in food systems, and/or equitable access to nutritious food. Proposals may be aimed at campus based program, local/domestic issues or international efforts.

SUBMISSION:

For submission guidelines, rules and eligibility requirements, please visit bigideas.berkeley.edu.

SPONSORS:

This category is sponsored by the Michigan State University Global Center for Food Systems Innovation, the Berkeley Food Institute, and the UC Office of the President.
