CITIES & COMMUNITIES

ART & SOCIAL CHANGE

Develop workforce solutions that provide the technical knowledge, practical skills, and readiness necessary to secure employment and become self-sufficient.

Launch an action-oriented, interdisciplinary project that would help alleviate a global health concern among low-resource communities.

Address challenges confronting global food systems and develop solutions around food security, sustainability, access, waste, and nutrition.

Create novel products, services, tools, or mechanisms that address unmet needs of the financially underserved.

Encourage the adoption of clean energy alternatives that are sustainable and have the potential for broad impact.

Develop a technology, program or policy to promote inclusive and equitable education, improve literacy, or enhance lifelong learning opportunities.

Propose a novel solution that leverages the capacity of technology to engage & enhance the well-being of campuses, communities, and cities.

Create an innovative arts project that meaningfully engages with issues of advocacy, justice, and community-building.

Win up to \$20K for your social innovation!

Big Ideas is an innovation contest that provides funding, training, networks, and recognition to interdisciplinary teams of students who have transformative solutions to real-world problems.
